MONTANA TRACK CLAWS, Incorporated

**NEW
PRE-SEASON
INVENTORY
Get Them While
They Last!**

**Hundreds of
Satisfied
Customers
Coast to Coast**

**Track Claws are reusable, quick
connect traction devices that
require no welding or cutting.**

Their unique "V" design provides penetrating traction while minimizing side slippage for improved safety.

Track Claws can be installed in minutes using only a ratchet and socket. No pad bolts are used in the installation - they bolt through the clean out hole using a special bottom plate (included) and a zinc plated grade 8 bolt.

Durable and reusable, **Track Claws** are made of higher grade material than track pads. Then they are heat treated creating a durable product that can be reused many times.

Track Claws are available for all popular styles of track pads including single, double and triple grouser bar styles. For pads without cleanout holes, a template will be provided.
