EXPO

ESSEX
JUNCTION

VERMONT

BRUTE FORCE.

Precision Whole Tree Chippers are built stronger than the competition, and have a reputation for trouble-free service. They have rugged frame construction, oversized stabilizers, air compressors, trash separators, and more powerful fans that pack more chips per van.

Since 1964, Precision Husky Corporation

has lead the industry, producing the highest quality, most rugged equipment available. You can invest in our equipment with confidence, and know it will perform for many years to come. Call us today to discuss your needs, as well as the newest options available for our line of sawmill, logging and wood waste recycling equipment.

MAY WE INTRODUCE SOME OTHER MEMBERS OF OUR FAMILY...

OTHER HAPPENINGS AT THE EXPO...

BEST BEARD IN THE INDUSTRY CONTEST

We're bringing back the "Best Beard in the Industry" contest at this year's Loggers' Expo! *Northern Logger* editor Erin Kessler will be walking around the Expo grounds taking photos of fantastic beards throughout the show. Don't hesitate to join in the fun and have your photo taken if you'd like to participate. Erin will also be at the Northern Logger Marketplace on Saturday, May 4 from 2-3pm.

Voting will take place through the *Northern Logger* Facebook page after the show - stay tuned to see the candidates posted on our page. We will announce our winner in our June 2024 issue.

The honor doesn't come with much of an award except for bragging rights. Best of luck!

The mission of the New Hampshire Timber Harvesting Council (NHTHC) is to promote a better public understanding of timber harvesting while improving the lives and livelihood of professional loggers and forest product truckers. One way to achieve this is through the Professional Loggers Program, which is a voluntary certification program for New Hampshire's loggers. **To learn more about the program please visit nhthc.org.**

The mission of the New Hampshire Timberland Owners Association (NHTOA) is to promote private and public working forests, responsible forest management, and a strong forest products industry. **To learn more about NHTOA please visit nhtoa.org.**

Announcing Wallingford's
partnership with

Gripen
of Sweden

Wallingford's is honored for the opportunity to distribute the cutting-edge grapple technology from HSP Gripen of Sweden, here in North America.

See us
in booths
#245-247

High strength steel

Laser, gas, and plasma cutting operations, coupled with robotic welding with modern machinery, ensures efficient production. The grapples undergo meticulous finishing, including powder-coating, and are subjected to rigorous testing. This commitment guarantees that users derive maximum performance from their grapples.

Unique claw design

Facilitates smooth and rapid operation across various materials, ensuring seamless engagement and high filling ratios.

Twin cylinders

Contributes to a low axle load and end position cushioning, resulting in exceptional handling characteristics.

Saw cassette option available

Wallingford's, Inc. is the North American leader in logging supplies; offering forestry tracks, tire chains, harvester bars, saw chain, grapples and more.
